

12-14 October 2011
Level 1, Hall 2
Shanghai East Best Convention & Exhibition Centre
Shanghai, China

New Venue: Shanghai East Best Convention & Exhibition Centre

Engage in the Vital Markets

of the Nonwovens Industry in China and Asia

With the nonwovens industry changing and developing at an increasing rate, **SINCE 2011** is a great opportunity for you to catch up with all the latest news and innovations. In its 14th edition and scheduled for **12-14 October 2011**, SINCE is by far the largest and most important meeting place for manufacturers, suppliers and buyers of nonwovens raw materials, equipment and machinery and services to reach China and the rest of Asia.

Approved by:

- The Ministry of Science & Technology of the People's Republic of China

Sponsored by:

- China Technology Market Association (CTMA)

Organised by:

- CNTA Science & Technology Co., Ltd. (CNTA)
- UBM Asia Trade Fairs Pte Ltd. (UBM)
- Shanghai Technology Convention & Exhibition Co., Ltd. (STCEC)

SINCE 2011

A Platform of Ideas

and Opportunities

At present, the international situation is in a complex and profound change. Affected by the international financial crisis, the real economy is also confronting an unprecedented crisis, and the whole world is enveloped in the shadow of the crisis. However, in the face of severe international economic environment, many governments have introduced corresponding policies to expand domestic demand and promote economic growth.

The Chinese government, for instance has issued 4 trillion Yuan economic stimulus plan and top ten industry revitalization measures. Currently these policies and measures are beginning to bear fruit and the Chinese economy is experiencing positive changes in operation. At present, the medical materials, filter media, automobile interiors and geosynthetics materials are all having a gratifying picture of booming sales. It is expected that in 2009 China's nonwovens production will be more than 1.5 million tons and will reach more than 1.8 million tons in 2011. By then, China will become the world's largest nonwovens production base and consuming market.

Going against the trend of global pessimism, the recent SINCE'09 + ANEX'09 exhibition held in Shanghai on 20-22 May 2009 was a huge success. The exhibition was held over two venues with an expanded exhibit area of 3 halls covering a total gross area of 18,000 square meters, which was the largest edition held so far. There were over 350 exhibiting companies from 25 countries and regions, of which more than 130 were international exhibitors. Around 14,000 trade visitors (including 3,000 overseas visitors) attended the exhibition. In conjunction with the exhibition, the Global Nonwovens Summit (GNS) was also held, which included products and technological innovation special reports and had obtained very positive feedbacks by the international nonwovens industry.

The next edition of the Shanghai International Nonwovens Exhibition (SINCE 2011) will be held in 12-14 October 2011, at a new venue, the Shanghai East Best Convention and Exhibition Center (the theme hall of World Expo 2010). It is expected that the scale of SINCE 2011 will exceed that of SINCE'09 + ANEX'09. The exhibition area is 18,000 square meters and exhibitors expected will be more than 400.

Show Profile

Exhibitors

All manufacturers and suppliers of nonwovens, machinery and equipment, raw materials and services.

Products

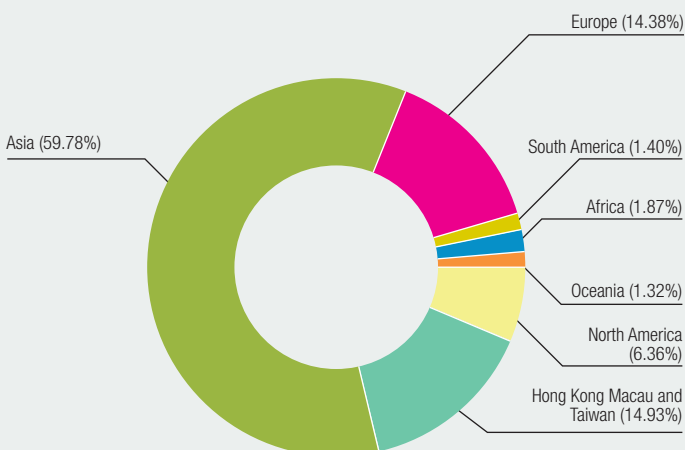

Processing equipment, finishing & converting machinery, fibre & chemical materials, affiliated equipment & accessories for the production of nonwovens and converted goods.

Visitors

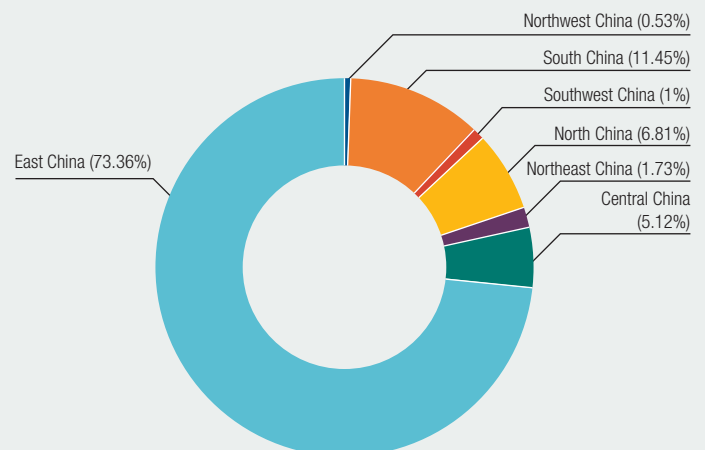

Manufacturers, suppliers, traders and end-users of nonwovens and related industry.

Facts & Figures of ANEX'09 + SINCE'09
